## 2 LOGIN TO THE MARKETPLACE ADMIN SITE

Users with Administrator access can login to the Marketplace administration website to manage every aspect of the Marketplace:

- Access the following web address in your browser:

Go to the URL **http://www.yourdomain.com/siteadmin** where **www.yourdomain.com** should be replaced with your storefront's domain name. Note that if the website is installed in your local machine the domain name will be "local host"

- The **Marketplace Management Login** page is displayed.

- Type your administrator user name and password. When the Marketplace is first installed the default user name is "admin" and the password is "admin".
- Click **Login**.
- Upon successful login, the **Dashboard** page is displayed.

## 3 SETUP

---

### 3.1 Stores

#### 3.1.1 Create New Store

To create a new store:

- Login to the Admin site. The Dashboard page is displayed.
- On the top menu, click Stores under Setup. The Stores page is displayed listing all the available stores in the Marketplace.
- Click on Add button. The Create Store page is displayed.
- Enter the following details:
  - **Brand Name:** Enter the brand name.
  - **Store Name:** Enter a name for your store. For example, enter Matt's Pizza Store.
  - **Catalog:** Select a catalog from the drop-down list. The selected catalog will be associated to this store.
  - **Theme:** Select a theme for this catalog from the drop-down list. Leave blank, if not sure. Leave at default if not sure.
  - **Style sheet (CSS):** Select a CSS file from the drop-down list, for the Theme selected above. Leave at default setting if you are not sure. Using the CSS setting you can change the look and feel of your site.
  - **Select a Logo:**
    - Select Upload New Image. Select a Logo Image is displayed.
    - Click Browse. The Choose file dialog box opens.
    - Choose a location and enter the filename of the logo image to upload. Only JPG, GIF and PNG images are supported.
    - Click Open. The location of the image is displayed.
- **Enable Secure Socket Layer (SSL) for this store:** Select to use a Secure Certificate for checkout. Important: If enabled, ensure that you have installed a valid certificate for the Marketplace to function.
- **Administrator's Email:** Enter the email address of your site administrator or webmaster. For example, enter webmaster@yoursite.com
- **Sales Category Email:** Enter the email address of your sales Category. For example, enter sales@yoursite.com
- **Customer Service Email:** Enter the email address of your customer service Category. For example, enter customerservice@yoursite.com
- **Sales Category Phone Number:** Enter the phone number of your sales Category. For example, enter 1-800-123-1234
- **Customer Service Phone Number:** Enter the phone number of your customer service Category. For example, enter 1-800-123-1234

- **Default Customer Review Status:** Select the default status of customer reviews from the drop-down list. Selecting Active will post the customer's review on the site immediately. Selecting Do Not Publish. Require Moderator Approval will require that you approve reviews before they are posted.
- **Default Order Status:** Select the default order status from the drop-down list.
- **Require Order Approval:** If selected, order status can be set only after it is approved.
- **Include Taxes In Product Price:** Select to show the product prices inclusive of taxes.
- **Enable Persistent Cart:** Select to enable the cart's persistence.
- **Enable Address Validation:** Select to enable Address validation while checkout and Adding Billing/Shipping Address.
- **Require Validated Address:** Select to require validated address while checkout and Adding Billing/Shipping Address.
- **Default Product Review Status:** Select the default product review status added by Franchise/Mall admin.
- **Enable Customer Based Pricing:** Select to Enable Customer Based Pricing. Customer based pricing allows merchants to display different prices for different customers when viewing the same product(s).

- **Enable Compare:** Select this checkbox as in Enable in state. Enable compare allows you to compare different products in the website.
- **Enable Single Page checkout:** Single page checkout provides you all the checkout steps in a single page
- **Allow checkout to accept multiple coupons:** Enable this checkbox if you want to allow to accept multiple coupons on your website
- Click **Submit**. The Manage Stores page is displayed.

### 3.1.2 Manage Store

- Login to the Admin site. The Dashboard page is displayed.
- On the top menu, click Stores under Setup. The Stores page is displayed listing all the available stores in the Marketplace.
- Click Manage link. The Manage store page is displayed.

### 3.1.2.1 General Tab

To configure the general settings, click on the General tab and then click on Edit button. Manage Store page is displayed.

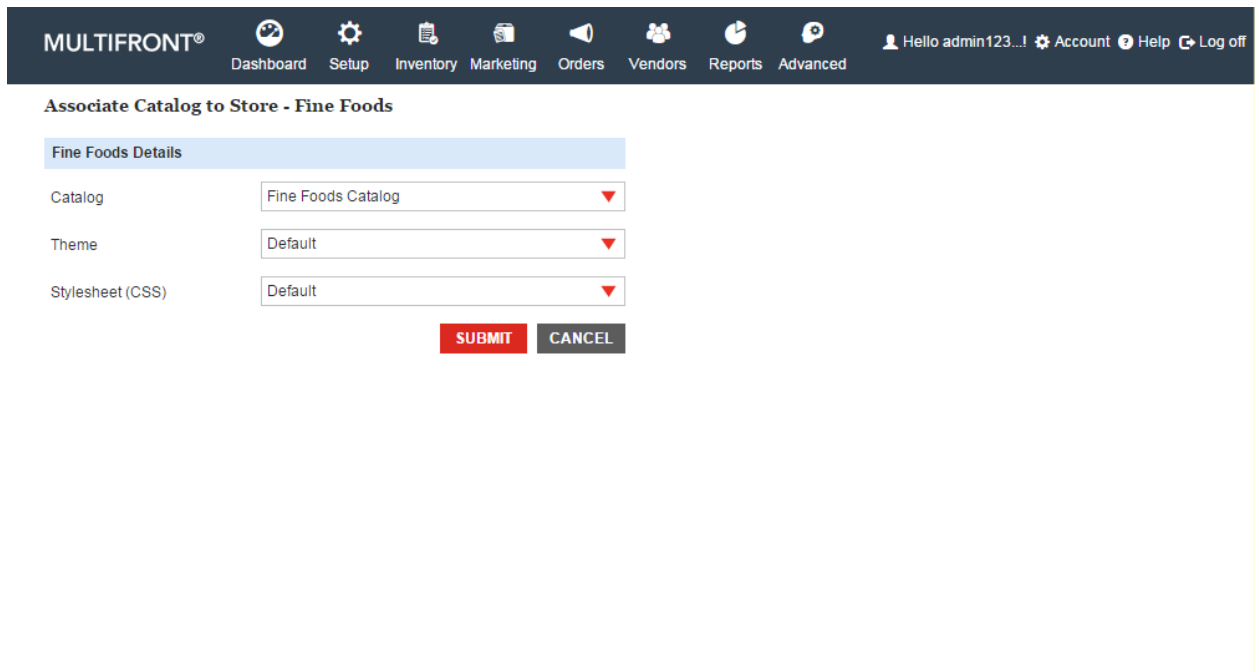

Edit the details you want to edit and Click on Submit button.

### 3.1.2.2 Catalog Tab

To associate store to a catalog, click on the Catalog tab and then click on Associate Catalog. Associate Catalog to Store page is displayed.

Enter the following details:

- **Catalog:** Select a catalog from the drop-down list to associate it to the store.
- **Theme:** Select a theme from the drop-down list.
- **Stylesheet(CSS):** Select a CSS from the drop-down list. If not sure, leave at Default.
- Click **Submit**. The Manage Store page is displayed with the newly added Catalog listed in the Catalog tab.

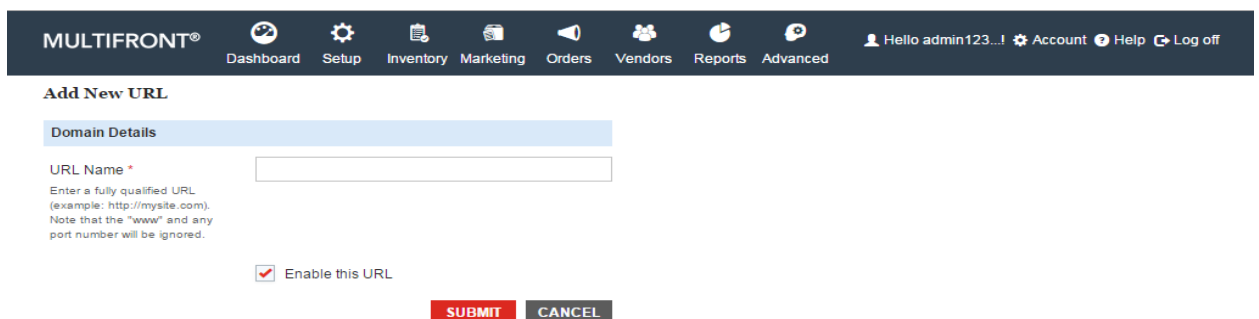

### 3.1.2.3 URL Tab

To associate this store to URL click on the URL tab and then click on Add button. Add New URL page is displayed.

Enter the following details:

- **URL Name:** Enter a fully qualified URL. For example enter <http://www.mysite.com>
- **Enable this URL:** Select to enable this URL for the store.
- Click **Submit**. The Manage Store page is displayed with the newly added URL listed in the URL tab.
- Newly added URL is display in the list.
- **Clear Cache:** Click on the Clear cache link to delete all the cache in the storefront.

Enter the following details:

- **Number of Product Columns:** Enter a number between 1 and 10. This determines the maximum number of columns to display in the catalog listing. For example, enter 4 to display four columns.
- **Number of Thumbnail Columns:** Enter a number. This determines the maximum number of thumbnail columns.
- **Display popular products on top of the list:** Check this box to automatically update the display order of products so that the most popular ones show first in category and search lists.
- **Large Image:** Enter a width or height in pixels. This determines the width or height of the image when the user clicks on the Large Image link. For example, enter 450 to display the large image at 450 pixel width. If this option is set too large your catalog may have trouble displaying the products within the bounds of the page.
- **Medium Image:** Enter a width or height in pixels. This determines the width or height of the image in the Product page. For example, enter 250 to display the Product image at 250 pixel width. If this option is set too large your catalog may have trouble displaying the products within the bounds of the page.
- **Small Image:** Enter a width or height in pixels. This determines the width or height of the image in the Product/Category page. For example, enter 150 to display the Product image at 150 pixel

width. If this option is set too large your catalog may have trouble displaying the products within the bounds of the page.

- **Cross-Sell Image:** Enter a width or height in pixels. This determines the width or height of the image in the Category page. For example, enter 100 to display the Product image at 100 pixel width. If this option is set too large your catalog may have trouble displaying the products within the bounds of the page.
- **Thumbnail Image:** Enter a width or height in pixels. This determines the width or height of the thumbnail images in the Product page. For example, enter 50 to display the thumbnail images at 50 pixel width. If this option is set too large your catalog may have trouble displaying the products within the bounds of the page.
- **Small Thumbnail Image:** Enter a width or height in pixels. This determines the width or height of the small thumbnail images in the Product page. For example, enter 35 to display the thumbnail images at 35 pixel width. If this option is set too large your catalog may have trouble displaying the products within the bounds of the page.
- Image not available path: The image specified here will be displayed when a product image is not available.
- Select Keep Current Image to retain the current image.

OR

- To change the image, select Upload New Image. Select an Image field is displayed.
- Click Browse, under the Product Image section. The Choose file dialog box opens. Choose a location and enter the filename of the product image to upload. Click Open. The location of the image is now displayed next to the Browse button.
- Note: Only JPG, GIF and PNG images are supported. Make sure your image is 1.5 Mb in size or less.

### 3.1.2.7 Countries Tab

You can create stores that cater to a particular country or a group of countries. To associate countries to this store click on the **Countries** tab and then click on **Add Countries to Stores**.

**Add Countries to Stores** page is displayed.

- To search for countries follow the steps below. Else, go to the next step to directly select the countries:
  - Enter keywords under Search Country.
  - Click **Search**. All countries meeting the above search criteria will be displayed under Countries List.
- From the Countries List:
  - Select countries to associate them to this store and
  - Select countries to ship products from this store.

- Click **Submit**. The **Manage Store** page is displayed with the newly added countries listed in the Countries tab.

**Note:** To delete a country associated to a store: On the Countries tab, click **Remove** on the country to delete its association to this store.

**Note:** You cannot delete a store if it has related items like category etc. associated to it. To delete such a product, all these associations must be deleted first.

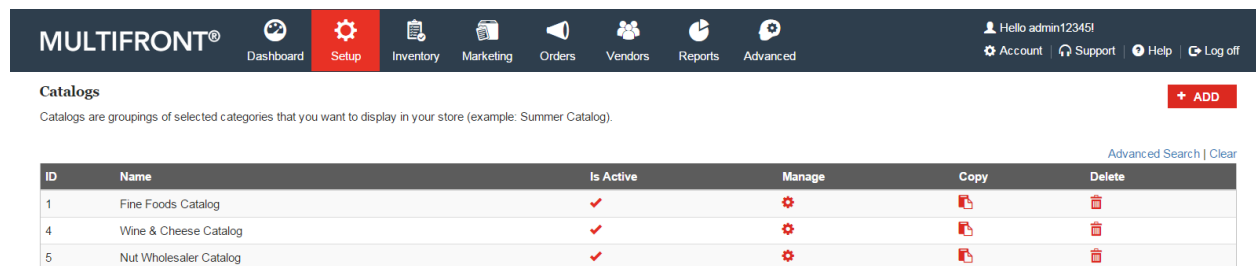

## 3.2 Catalog

From the **Catalogs** page you can manage all the store catalogs.

### 3.2.1 View Catalog

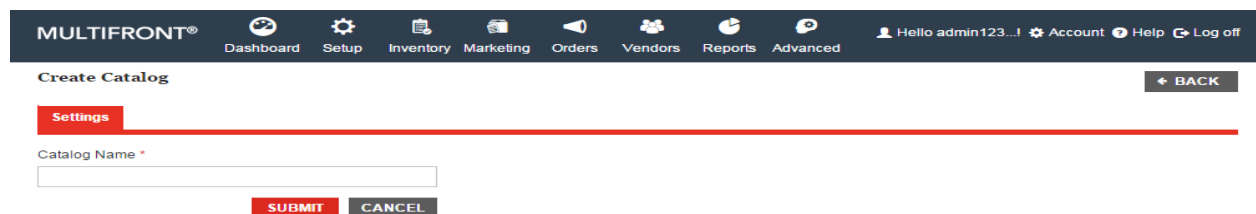

- Login to the Admin site. The **Dashboard** page is displayed.
- On the top menu, click **Catalogs** under **Setup**. The **Catalogs** page is displayed listing all the available store catalogs in the Marketplace.

ID	Name	Is Active	Manage	Copy	Delete
1	Fine Foods Catalog	✓			
4	Wine & Cheese Catalog	✓			
5	Nut Wholesaler Catalog	✓			

### 3.2.2 Add Catalog

- Login to Admin site. The **Dashboard** page is displayed.
- On the top menu, click **Catalogs** under **Setup**. The **Catalogs** page is displayed listing all the available store catalogs in the Marketplace.
- Click **Add New Catalog**. The **Create catalog** page is displayed.

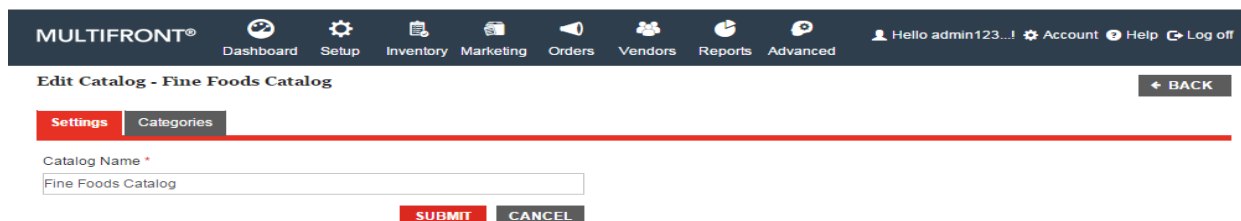

- Enter the following details:
  - **Catalog Name:** Enter a name for the catalog (ex: "Fruit Catalog")

- Click **Submit**. The **Edit Catalog** page is displayed.

### 3.2.3 Edit Catalog

- Login to the Admin site. The **Dashboard** page is displayed.
- On the top menu, click **Catalogs** under **Setup**. The **Catalogs** page is displayed listing all the available store catalogs in the Marketplace.
- Click **Manage** on the Catalog to edit it. The **Edit Catalog** page is displayed.

- Edit the following details:  
On the Settings tab edit the following:
  - **Catalog Name:** Edit the catalog name.
 On the Categories tab to edit a category do the following:
  - Click **Edit** on the Category to want to edit. **Associate Category with Catalog** page is displayed.
 Edit the following details:
  - **Search & Select Category:** Select category to associate in Catalog
    - **Parent Category:** Select the parent Category for this Category. Leave at NONE if this is the parent Category.
    - **Enable this Category:** Select to display this Category on the navigation menu.
    - **Display Order:** Enter a Display Order.
    - **Category Page Theme:** Select the theme for this Category from the drop-down list. This will override any other setting. Leave at default if not sure.
    - **Master Page Template:** Select a template from the drop-down list.
    - **Style sheet (CSS):** Select a style from the drop-down list.

Click **Submit**. The **Edit Catalog** page is displayed listing the associated Categories under the Category tab.

On the Category tab to delete a Category do the following:

- Click **Delete** on the Category to want to edit. The **Edit Catalog** page is displayed with the deleted Category removed from the Categories list under the Category tab.

5. Click **Submit**. The **Catalogs** page is displayed listing the newly edited catalog under Catalogs List.

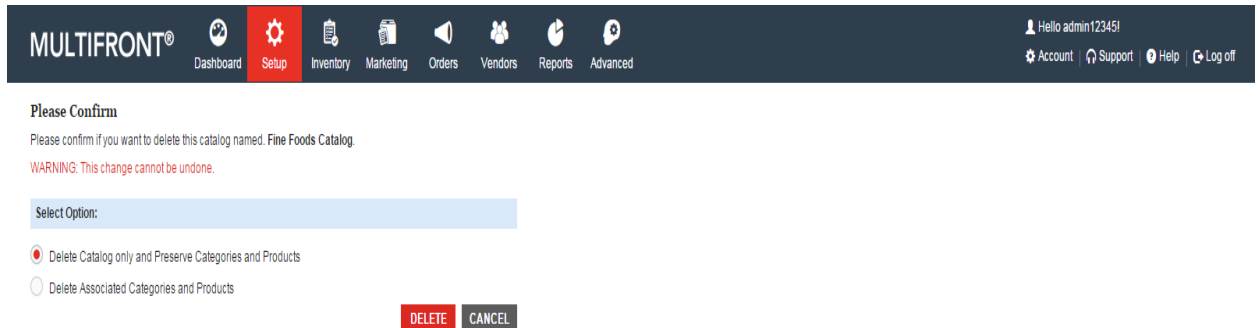

○

- Click **Submit**. The **Catalogs** page is displayed listing the newly edited catalog under Catalogs List.

### 3.2.4 Delete Catalog

- Login to the Admin site. The **Dashboard** page is displayed.
- On the top menu, click **Catalogs** under **Setup**. The **Catalogs** page is displayed listing all the available store catalogs in the Marketplace.
- Click **Delete** on the catalog you want to delete. The **Please Confirm** page is displayed.
- Click **Delete** to confirm. The **Catalogs** page is displayed with the deleted catalog removed from the list

**Note:** You will not be allowed to delete the Catalog if it has associations to Categories. Delete these associations first and then delete the catalog

The screenshot shows the MULTIFRONT admin interface. The top navigation bar includes the MULTIFRONT logo and a menu with items: Dashboard, Setup (highlighted), Inventory, Marketing, Orders, Vendors, Reports, and Advanced. On the right, it says 'Hello admin12345!' and provides links for Account, Support, Help, and Log off.

The main content area displays a 'Please Confirm' dialog for deleting a catalog named 'Fine Foods Catalog'. It includes a warning: 'WARNING: This change cannot be undone.' Below this, there is a 'Select Option:' section with two radio buttons: 'Delete Catalog only and Preserve Categories and Products' (which is selected) and 'Delete Associated Categories and Products'. At the bottom right of the dialog are two buttons: 'DELETE' and 'CANCEL'.

## 3.3 Categories

Product Categories are the hierarchical groupings for the products in your catalog (ex: "Apparel"). Product Categories can also be used to create "Categories" to help customers find what they are looking for.

### 3.3.1 View Categories in Grid View

- Login to the Admin site. The **Dashboard** page is displayed.
- On the top menu, click **Categories** under **Setup**. The **Categories** page is displayed listing all the available Categories in the Marketplace.

### 3.3.1.1 View Categories in Tree View

- Login to the Admin site. The **Dashboard** page is displayed.
- On the top menu, click **Categories** under **Setup**. The **Categories** page is displayed listing all the available Categories in the Marketplace.
- Click on the Tree View.
- Here all the categories are display in the tree view with associated product count

The screenshot shows the Znode Admin Dashboard. The top navigation bar includes links for Dashboard, Setup (highlighted), Inventory, Marketing, Orders, Vendors, Reports, Advanced, and Plugins. The user is logged in as admin12345. The main content area is titled 'Categories' and includes a description: 'Categories are hierarchical groupings of products in your catalog (example: Apparel, Electronics, etc).' and a note: 'Note: After adding or deleting a category a manual re-index is required.' There is a search bar with a dropdown menu for 'Catalog' (currently set to 'Fine Foods Catalog') and buttons for 'SEARCH' and 'CLEAR'. On the right, there are buttons for 'Tree View' (highlighted with a red circle) and 'Grid View'. The main list of categories is displayed in a tree view format, showing a hierarchy of products with their counts:

- Fruit (11)
  - Vegetables (13)
  - Flowers (12)
  - Organic Produce (8)
  - Gifts (8)
  - Nuts (13)
  - Cheese (12)
  - Wine (12)
  - Exotic Fruit (4)
- Home & Furniture (0)

### 3.3.2 Add Category

- Login to the Admin site. The **Dashboard** page is displayed.
- On the top menu, click **Categories** under **Setup**. The **Categories** page is displayed listing all the available Categories in the Marketplace.
- Click **Add New Category**. The **Add Category** page is displayed.

- Enter the following details:
  - **Category Name:** Enter a name for the Category (ex: “Immune”)
  - **Category Title:** Enter a title for the Category page. (Ex: “Immune System”). Leave blank, if you do not want to display the title.
  - **Display Order:** Enter a numeric value. This determines the order in which this Category is displayed.

- **Child Categories:** Select to display child Categories on the Category page.
- **Category Image:** Click **Browse**, under the **Category Image** section. The **Choose file** dialog box opens. Choose a location and enter the filename of the Category image to upload. Click **Open**. The location of the image is now displayed next to the **Browse** button.  
  
Note: Only JPG, GIF and PNG images are supported. Make sure your image is 1.5 Mb in size or less.
- **Category Image ALT Text:** Enter a short descriptive text for this product to be used in the image ALT text. This text is displayed if the image does not download correctly.
- **Enter a title for Search Engines:** Enter a title. Leave this section blank if unsure.
- **Enter Keywords for Search Engines:** Enter comma separated keywords. Leave this section blank if unsure.
- **Enter Description for Search Engines:** Enter a description. Leave this section blank if unsure.
- **Enter a SEO friendly name for this Category:** Use only characters a-z and 0-9. Use "-" instead of spaces. Do not use a file extension or parameters in your URL name.
- **Add 301 redirect on URL changes:** Select to add a 301 redirect if you are changing the page name. This will automatically redirect people and search engines to the new page if the old URL is entered.
- **Short Description:** Enter an optional short description (less than 100 characters) to be displayed in the Category listing grid.
- **Long Description:** You can enter rich text and upload images using the editor. This will allow you to create a splash page for your Category or provide a text introduction that will show above your products. You may leave this field blank.
- **Additional Description:** Enter additional information for the Category description.
- **Category Banner:** You can enter rich text and upload images using the editor. This can be used for Category Banner.
- Click **Submit**. The **Manage Category** page is displayed with the Category details listed under the Category Information tab.
- Click **Back to List Page**. The **Categories** page is displayed. The newly added Category is displayed in the list.

**Note:** After creating this Category you must associate products to this Category.

### 3.3.3 Associating products to Category

## 3.4 Payments

The Payment Options page allows the site administrator to add and manage different payment options such as credit cards and purchase orders and also to configure the payment gateway settings

The following payment methods are supported by the storefront:

- **Credit Card:** This is the most convenient way of making payments for on-line shopping. All the customers need to enter, is their credit card number and some security information. The order is processed only after the payment gateways authorize the credit card information.
- **Purchase Orders:** Using this option, customers can make payments using a purchase order. No payment is processed at the time of the order. Instead a PO number is recorded and the customer is billed using your own internal accounting procedures.
- **PayPal Express Checkout:** PayPal Express Checkout allows your customers to complete transactions in very few steps. It lets them use shipping and billing information stored securely at PayPal to check out, so they don't have to re-enter it on your site.
- **2Checkout:** 2Checkout or 2CO, provides a reliable payment method for more than 1.6 million products and services throughout the world. While entering your product details, enter the 2CO ID of the products in [Add Product SKU](#) page. When buyers want to make a purchase, 2CO securely handles the transaction and deposits the funds into your account. All you have to do as the supplier is fulfill the order.
- **World Pay:** World pay is a global leader in payments and solutions for our merchant customers.
- **COD:** COD (Collect on Delivery) is a financial transaction where the payment for products / services is done at the time of actual delivery rather than paid for in advance. This type of transaction was previously known better as "Cash on Delivery", however as other forms of payment became more common the word "cash" was replaced with the word "collect" to incorporate transactions with checks, credit cards or debit cards.

### 3.4.1 Adding Payments Options

- Enter the following details:
  - Select a profile to which this setting should be applied: Select a store and profile from the drop-down list.
  - Select a shipping type: Select a shipping type from the drop-down list.
  - Shipping option display name: Enter a display name for this shipping option. For example, enter Federal Express Overnight.
  - Enter your internal shipping code: Enter your internal shipping code. For example, enter FEDEX\_OVNT.
  - Handling Charge (Optional): Enter a handling charge. For example, enter 5.00
  - Destination Country (Optional): Select a country from the drop-down list to restrict this shipping option to a specific country.
  - Enable: Select to enable this shipping option.
  - Display Order: Enter a number. This is the order in which this shipping option will be displayed to the customer.
- Click Submit. The Shipping page is displayed listing the newly added shipping option.

### 3.5.2 Editing Shipping Options

To edit a shipping option:

- Login to Admin site. The Dashboard page is displayed.
- On the top menu, click Shipping under Setup. The Shipping page is displayed listing the current shipping options.
- Click Edit on the shipping option you want to edit. Edit Shipping Option page is displayed.
- Edit the following details:
  - Select a profile to which this setting should be applied: Select a store and profile from the drop-down list.
  - Select a shipping type: Select a shipping type from the drop-down list.
  - Shipping option display name: Edit the display name for this shipping option.
  - Enter your internal shipping code: Edit your internal shipping code.
  - Handling Charge (Optional): Edit the handling charge.
  - Destination Country (Optional): Select a country from the drop-down list to restrict this shipping option to a specific country.
  - Enable: Select to enable this shipping option.
  - Display Order: Edit the display order. This is the order in which this shipping option will be displayed to the customer.
- Click Submit. The Shipping page is displayed.

### 3.5.3 Adding Shipping Rules

Shipping rules determine shipping costs based on quantity, weight and other parameters. At least one shipping rule must be added for each shipping option to use them in your Marketplace.

To add a shipping rule:

- Login to Admin site. The Dashboard page is displayed.
- On the top menu, click Shipping under Setup. The Shipping page is displayed listing the current shipping options.
- Click Add Rule on the shipping option, for which you want to add a shipping rule.

- Add a Shipping Rule page is displayed.

The screenshot shows the 'Add Shipping Rule for: Custom Flat Rate' page. At the top is a dark navigation bar with the 'MULTIFRONT' logo and various icons for Dashboard, Setup, Inventory, Marketing, Orders, Vendors, Reports, and Advanced. A user profile 'Hello admin123...' is also visible. Below the navigation bar, the page title 'Add Shipping Rule for: Custom Flat Rate' is displayed. A subtitle explains: 'Create a rule to calculate shipping cost for this option during checkout. Rules can be based on a flat rate, quantity, weight, or fixed rate for specific products.' The form is divided into two main sections: 'Shipping Rule Type' and 'SET Pricing'. In the 'Shipping Rule Type' section, there is a 'Rule Type' dropdown menu currently set to 'Flat Rate Per Item'. The 'SET Pricing' section contains two input fields: 'Base Cost' with a value of '\$ 1.00' and a note 'The base cost is applied regardless of the number of items.', and 'Per Unit Cost' with a value of '\$ 1.00' and a note 'Shipping cost to be applied to each unit in the order.'. At the bottom right of the form are two buttons: 'SUBMIT' (red) and 'CANCEL' (grey).

- Enter the following details:
  - Select a Rule Type: Select a rule type from the drop-down list.
  - Base Cost: Enter the base cost which is applied irrespective of the number of items.
  - Per Item Cost: Enter the shipping cost to be applied to each item in the order.
  - For rate based on quantity and rate based on weight, enter limits for tiered pricing\*:
  - Lower Limit (# Items): Enter a lower limit.
  - Upper Limit (# Items): Enter an upper limit.
- Click Submit. The Shipping Option page is displayed listing the newly added shipping rule.

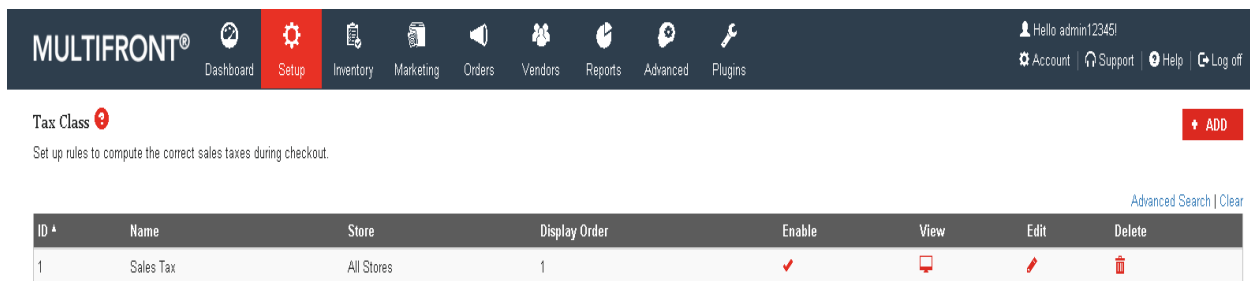

## 3.6 Tax Classes

The Tax Class page allows the site administrator to add and manage tax classes. Tax classes are used to group product types with specific tax rules. For example you can create a tax class for product type "Food" that applies to a specific region.

### 3.6.1 Adding Tax Classes

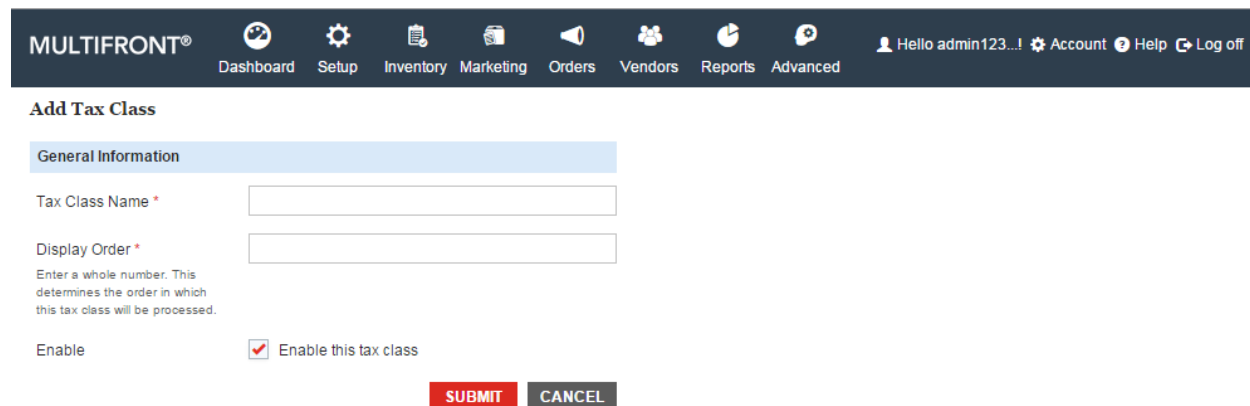

To add a tax class:

- Login to the Admin site. The Dashboard page is displayed.
- On the top menu, click Tax Classes under Setup. The Tax Class page is displayed listing the current tax classes for the Marketplace.

ID	Name	Store	Display Order	Enable	View	Edit	Delete
1	Sales Tax	All Stores	1	<input checked="" type="checkbox"/>			

- Click Add Tax Class. Add a Tax Class page is displayed.

**Add Tax Class**

**General Information**

Tax Class Name \*

Display Order \*

Enter a whole number. This determines the order in which this tax class will be processed.

Enable ☒ Enable this tax class

**SUBMIT** **CANCEL**

- Enter the following details:
  - Tax Class Name: Enter a Tax class name.
  - Display Order: Enter a number. This determines the order in which this tax rule will be processed.
  - Enable: Select to enable this tax class.
- Click Submit. The Tax Class page is displayed listing the newly added tax class.

Note: You must add at least one tax rule for this shipping option in order to use it in your Marketplace.

### 3.6.2 Editing Tax Classes

To edit a tax class:

- Login to the Admin site. The Dashboard page is displayed.
- On the top menu, click Tax Classes under Setup. The Tax Class page is displayed listing the current tax classes for the Marketplace.
- Click Edit on the tax class to edit it. Edit Tax Class page is displayed.
- Edit the following details:
  - Tax Class Name: Edit the Tax class name.
  - Display Order: Edit the number. This determines the order in which this tax rule will be processed.
  - Enable: Select to enable this tax class.
- Click Submit. The Tax Class page is displayed listing the details of the newly added tax class.

### 3.6.3 Adding a Tax Rule

To add a tax rule:

- Login to Admin site. The Dashboard page is displayed.
- On the top menu, click Tax Classes under Setup. The Tax Class page is displayed listing the current tax classes for the Marketplace.

Tax Rule List

Tax Rules are applied in the order of precedence. For Example, to implement a tax rule to apply 5% tax to residents of Alaska and 6.5% for all other US States do the following:

- Add a rule with Country=US, State=AK, Tax=5%, Precedence=1
- Add a second rule with Country=US, State=ALL States, Tax=6.5%, Precedence=2

    - HST Tax %: Enter a HST Tax
  - Precedence: Enter a number. This is the order in which this tax rule will be processed.
  - Include Taxes in Product Pricing: Select to include taxes in the product price.
- Click Submit. The Tax Class page is displayed listing the newly added tax rule.

## 3.7 Manage Messages

**Manage Messages** section allows you to customize various messages on the website.

Custom messages are text blocks (like "Home page welcome message", "We also recommend", "Customer Service Information" etc.) that appear on various areas on the storefront. You can replace these areas with your own customized text.

### 3.7.1 View Custom Message

- Login to the Admin site. The **Dashboard** page is displayed.
- On the top menu, click **Manage Messages** under **Setup**. The **Mange Messages** page is displaying listing all the custom messages in the storefront.
