## 2 LOGIN TO THE MARKETPLACE ADMIN SITE

Users with Administrator access can login to the Marketplace administration website to manage every aspect of the Marketplace:

- Access the following web address in your browser:

Go to the URL <http://www.yourdomain.com/siteadmin> where **www.yourdomain.com** should be replaced with your storefront's domain name. Note that if the website is installed in your local machine the domain name will be "localhost"

- The **Marketplace Management Login** page is displayed.

MULTIFRONT®

**Merchant Login**  
Log in to setup and manage your store.

**LOGIN**

Remember Me [Forgot your password?](#)

Znode® relevant ecommerce

- Type your administrator user name and password. When the Marketplace is first installed the default user name is "admin" and the password is "admin".
- Click **Login**.
- Upon successful login, the **Dashboard** page is displayed.

### 3.1 Store Administrators

**Site Admin** page allows you to manage the site admin's account information.

#### 3.1.1 View Store Administrator

To search for and view site admins:

1. [Login to the Marketplace administration website](#). The **Dashboard** page is displayed.
2. On the top menu, click **Store Administrator** under **Advanced**. The **Site Admins** page is displayed listing all site admins in the database.
3. To search for a site admin:
  - **Store Name:** Select a store name from the drop-down list.
  - **Search Account:** Enter a keyword. This can be a partial First Name, Last Name, Company Name, Login Name, Account Number, Contact ID, Phone Number and Email ID.
  - **Select a Profile:** Select the profile from the drop-down list.
  - **Start Date:** Enter the start date in MM/DD/YYYY format OR click the calendar button beside the date box to set the date.
  - **End Date:** Enter the end date in MM/DD/YYYY format OR click the calendar button beside the date box to set the date.
  - Click **Search**. All accounts matching the search criteria will be displayed under **Site Admin List**.
4. Click **Manage** on the site admin to view its details. The **Site Admin Details** page is displayed listing the site admin details.

Email Address

### Permissions:

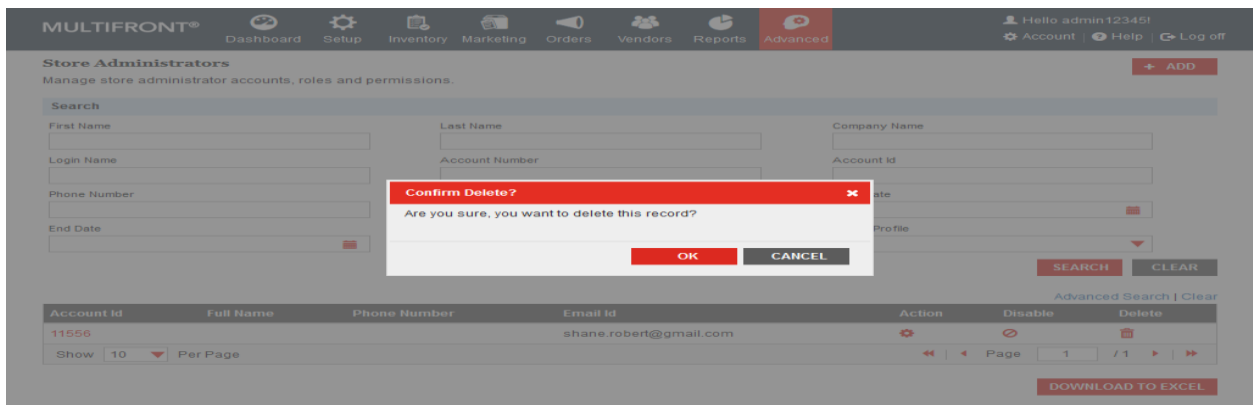

Here Super admin can select the Roles and Permission to the admin. While clicking on the Edit Roles and permission button Edit Permission page is display.

1. Login the Site Admin and dashboard is display.
2. Select Store admin from the Advance tab, Store admin page is display.
3. Click on the manage link from any account.
4. Select Permission tab and click on the Edit Roles and Permission button.
5. Uncheck All Store check box, all other store is display along with the check box.
6. Select Roles from the Select Roles section and click on the submit button.

### 3.1.4 Delete Store Administrator

1. Login to the Marketplace administration website. The **Dashboard** page is displayed.
2. On the top menu, click **Store Administrators** under **Advance**. The **Store Administrators** page is display.
3. Click on the Delete link of from the store admin link.
4. Confirmation message is display
5. Click on the Delete link, selected store administrator is removed from the list.

### 3.2 Rotate Key

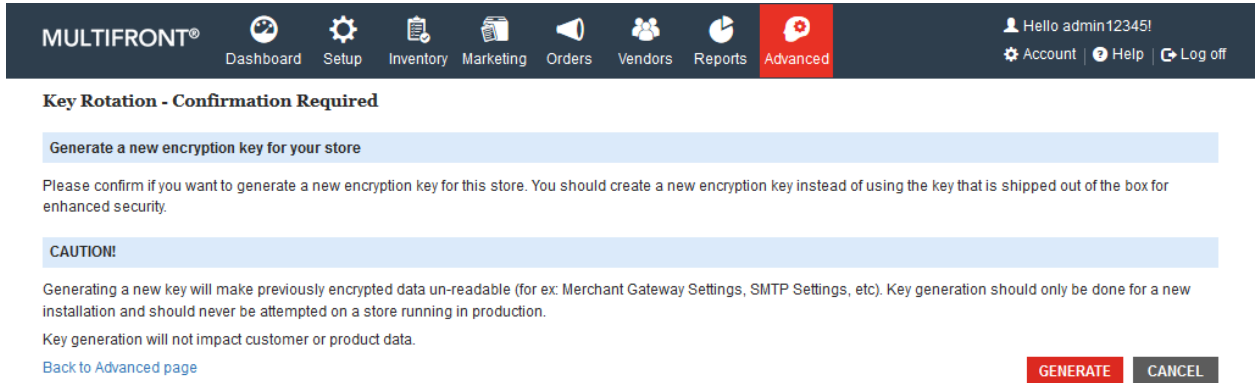

For enhanced security, you should create a new encryption key instead of using the key that is included out of the box with Marketplace.

To rotate key:

1. [Login to the Marketplace administration website](#). The **Dashboard** page is displayed.
2. On the top menu, click **Rotate Key** under **Advanced**. **Key Rotation - Confirmation Required** page is displayed.
3. Click **Generate**. Message is displayed.

**Caution:** Generating a new key will make previously encrypted data un-readable (for ex: Merchant Gateway Settings, SMTP Settings, etc). Key generation should only be done for a new storefront and should never be attempted on a storefront running in production.

Key generation will not impact customer or product data.

The screenshot shows the Znode Advanced user interface. At the top, there is a navigation bar with the 'MULTIFRONT®' logo and several menu items: Dashboard, Setup, Inventory, Marketing, Orders, Vendors, Reports, and Advanced (which is highlighted in red). On the right side of the navigation bar, it says 'Hello admin12345!' and has links for Account, Help, and Log off.

The main content area is titled 'Key Rotation - Confirmation Required'. Below the title, there is a blue bar with the text 'Generate a new encryption key for your store'. Below this, a paragraph reads: 'Please confirm if you want to generate a new encryption key for this store. You should create a new encryption key instead of using the key that is shipped out of the box for enhanced security.'

Below the paragraph is a 'CAUTION!' section with a light blue background. It contains the same warning text as above. Below the caution, it says 'Key generation will not impact customer or product data.' and provides a link 'Back to Advanced page'.

At the bottom right of the dialog, there are two buttons: 'GENERATE' (in red) and 'CANCEL' (in grey).

### 3.3 Provider Engine

Add custom business providers to your store. Advanced functionality for experienced developers only.

#### 3.3.1 Promotions

##### 3.3.1.1 View promotion rule types

To view promotion rule types:

1. [Login to the Marketplace administration website](#). The **Dashboard** page is displayed
2. On the top menu, click **Provider Engine** under **Advanced**. The **Custom .NET Promotion Classes** page is displayed listing all the .NET promotion classes.
